

## **CEO's Message – October 2023**

At Indus we believe that the teacher-effectiveness is the cornerstone for character development, academic excellence, and fostering creativity in children. A skilled and motivated teacher not only shares her experiential knowledge, but also inspires agency and learning, especially on how to be a lifelong learner. She also plays a vital role in role-modelling the Indus core values.

Teacher-effectiveness at Indus is deliberate and intentional. We believe and practise that for sustainability, self-growth is a pre-condition for professional growth.
